GoPro Hosting is a service provided by the [American Federation of Musicians of the United States and Canada](#). As a part of the largest organization in North America representing professional musicians, **we know what musicians need**. AFM GoPro Hosting is uniquely suited to serve AFM members' web hosting needs.

AFM members and locals frequently save **substantial money** by switching to GoPro Hosting—as much as hundreds of dollars a year.

We put a **friendly face** on an often impersonal business. Remember, the AFM is here to *serve* our members. In addition to online technical support, we also offer phone support with living,

breathing staff.

We offer **feature-packed web hosting**, starting at \$19.00 a year, and **bandwidth is always unlimited**. You can simplify your life and register your domain name with us as well; everything is billed and managed from the same company. Don't have a website yet? Try [AFM Adlib!](#)

Most importantly, as you're dealing with the AFM, you can be sure that **we're looking out for you**, unlike many fly-by-night web hosting companies out to make a quick buck.

Services for AFM Locals

For AFM Locals (chapters), we offer hosting and a ready-to-go website, the [Quartet Software Suite](#). Features include:

- A complete website, easily edited via a easy-to-use content management system (CMS) called Wordpress. This software is used by millions of people around the world.
 - A private "Members' Area", with users authenticated by the AFM.org member database. Alternately, you can manage access to this area yourself.
 - An online booking referral service utilizing data from GoPro Music.
- Email and phone technical support, and training for your Locals officers and staff.
